

SBP-P SERIES

PERFORATED PANEL

The MAINFRAME Perforated Panel is the ideal solution for safeguarding valuable rack-mounted gear without compromising accessibility or ventilation. It is designed for 19-inch rack systems, blending seamlessly with the existing setup. The perforation pattern discourages unauthorized tampering and allows quick visual checks of the equipment's settings. Best of all, the air circulation keeps the gear cool and ensures optimal performance.

Tamper-Resistant

Designed to deter unauthorized access, offering extra security for the gear.

Quick Visual Checks

Perforations allow quickly verifying setting configurations without removing the panel.

Optimized Ventilation

The perforated design promotes airflow, contributing to the efficient cooling of the equipment.

FEATURES

- Universal Compatibility**
Designed to fit 19-inch wide server rack, it is a versatile addition to any standard setup.
- Material & Surface Finish:**
 - SPCC cold rolled steel t1.2
 - Black powder coated
- Includes:**
 - 10-32 Mounting screws & Cage nuts
 - 1/2/3/4/6U: 4 sets 8U: 8 sets
- Includes a 3-year limited warranty from MAINFRAME**
