

R-CAB SERIES

REVERSIBLE HINGED WALL-MOUNT CABINET

Reversible Hinged Wall-Mount Series deliver flexibility, visibility, and security in one solid frame. Designed for dynamic installations where space and accessibility are key, the R-CAB's reversible design lets the cabinet swing left or right. Its welded, factory-assembled construction ensures a clean, professional fit.

A unique 90° rotating rear door allows access to the cabinet's rear for chasing wires and managing runs.

Dual fans and cable panels on both top and bottom enhance airflow and cable management.

Reversible design supports flexible left or right swing, ideal for any workspace orientation.

FEATURES

- **Double Section Swing-Out**
